

EIHZ

The real value coin! Value infrastructure! Value intelligent chain! Value-driven!

Pushing the advancement and development of innovation, technology development, entrepreneurship investment and value projects/applications, etc.!

A unicorn! An authoritative financial portal/mainstream portal/value platform! A value complex!

■ About EHZ

EHZ, the real value coin! Value infrastructure! Value intelligent chain! A unicorn! An authoritative financial portal/mainstream portal/value platform! A value complex! Value-driven and value-oriented!

- EHZ will push the advancement and development of innovation, technology development, entrepreneurship investment and value projects/applications, etc.! It will create value and welfare for the country, society and people!
- EHZ official website has been in operation for eight years. It is a unicorn, an authoritative financial portal/mainstream portal/financial platform/value platform, with great influence and credibility! In a matter of years, EHZ official website has pushed advancement and development of innovation, technology development, entrepreneurship investment, value finance, etc. and achieved great results! Value-oriented and value-driven, EHZ official website: www.cjz.vip
- EHZ added value infrastructure and value intelligent chain. EHZ will directly create or spawn massive scientific and technological projects, innovative projects, value projects/applications, etc. It is value-oriented and value-driven. It will achieve both qualitative and quantitative leap, and will further push the advancement and development of innovation, technology development, entrepreneurship investment and value projects/applications, etc. It will create value and welfare for the country, society, people and investors.

■ EHZ Value Infrastructure 1:

■ Science and technology:

On the value infrastructure of EHZ, every person in the world with a certain level of scientific and technological knowledge, whether it is the knowledge and technology of a certain part or link of science and technology, their scientific and technological cognition, technical skills, or technological fragments, no matter whether it is partial or complete, or details, ideas/concepts, etc., can be stored, launched/developed, improved, integrated, displayed, operated, created value, cooperated, traded, earned, realized, etc. on the EHZ value infrastructure. The collision and convergence of global science and technology oceans will form a strong joint force of science and technology.

■ Innovation:

Everyone's innovation in the world can bloom on the value infrastructure of EHZ! Under the guidance of value orientation, all kinds of innovation for everyone in the world and the combined force of innovation without barriers for everyone in the world will be extremely profound. Its huge large-scale and various innovation effects and value effects will bring abundant well-being to the society and the people; the innovation of everyone in the world can be displayed, implemented, stored, improved, integrated, developed, cooperated, traded, earned, realized, etc. on EHZ;

■ Value projects/applications:

Entrepreneurs (individuals, teams, enterprises, etc.) all over the world can create and operate value projects/applications on EHZ. While creating value, they can also finance, trade, etc., and enjoy the same rights with the scientific and technological projects and innovation projects on it.

In addition to directly creating projects, technology projects, innovation projects, and value projects/applications that are already in operation can be settled in the value infrastructure of EHZ.

■ EHZ Value Infrastructure 2:

The venture capital investment of all projects and investments at various stages on EHZ value infrastructure must include a certain percentage of EHZ value coins:

Entrepreneurs can create value projects, run/operate projects on EHZ, and obtain financing on the value infrastructure/value intelligent chain of EHZ; project investors, whether they are owners of various capital, organizations, institutions, funds, enterprises with investment needs, or individual investors, can invest in related projects on EHZ, including entrepreneurial projects, technology projects, innovation projects, and value projects in various stages;

In addition to obtaining peer-to-peer venture capital from project investors, entrepreneurs of technology/innovation projects of value projects/applications can also apply for the issuance of their exclusive digital currency on the value infrastructure/value intelligent chain of EHZ at the appropriate stage after being reviewed by EHZ to support the development of their projects. It can also be launched and traded on the value currency exchange of EHZ, so as to better create value and welfare for the society and people.

When institutions/funds/enterprises/organizations/LP/GP/high-net-worth individuals and other capital parties participate in various project investment, mergers and acquisitions, transactions, and investment in each round of projects on EHZ (such as seed rounds, angel rounds, A/B/C/ rounds, pre-IPO rounds, etc.), they need to deploy a certain proportion of EHZ value coins to participate in the investment.

When a project is created on the infrastructure of EHZ (or when a third-party project settles in), when signing a value-oriented network agreement with EHZ, it will indicate on the agreement that when any subsequent rounds of venture capital is obtained, the investment funds should contain a certain percentage of EHZ value coins or related assets officially approved by EHZ.

■ EHZ Value Infrastructure 3:

01

The funds raised on EHZ by issuing coins for technology projects, value projects and applications will be unlocked to the project party according to the progress of technology projects/value projects, and the funds will be used exclusively; when they issue coins and go online on the value currency exchange of EHZ, it is necessary to purchase, hold and consume a certain amount of EHZ.

02

According to the scientific research achievements, innovation achievements, value contribution to the future, the country, society, people, etc. of each person, team or enterprise, after reaching the standard, they will be rewarded with EHZ value coins (for example, if they have made a certain contribution, or there are scientific research achievements, innovation achievements, the benefits brought by value projects/applications to the society and the people, etc., or other valuable contributions, after reaching a certain standard, they will be rewarded with EHZ digital coins); the digital coins will be locked up and sold in installments after they have held them for a certain period of time.

■ EHZ Value Infrastructure 3:

03

Each science and technology project, innovation project and value project will be audited when issuing coins on the value infrastructure/value intelligent chain of EHZ. After passing the audit, it can be traded on the value currency exchange of EHZ or other exchanges. The digital coins issued by some of the approved projects will be unlocked according to the development progress of the project to ensure that it is a value project or application, and its development and each stage belong to the value category, which is beneficial to the country, society and people, can bring value (including value to investors), and can produce value effects or energy at present or in the future.

04

There are abundant scientific and technological projects, innovation projects, and value projects/applications on the value infrastructure of EHZ. For example, the Metaverse is only one type of massive projects. In addition to the many project categories we know, such as life sciences, intelligent AI, virtual reality, etc., a series of pioneering and subversive projects and categories, never-before-seen projects and categories will be created. They are value-oriented, will promote social progress and development, and seek welfare for society and human beings.

■ Use and consumption of EHZ:

EHZ is a value infrastructure, a value intelligent chain, and a real value currency. A total of 9 billion EHZ coins were issued, and the places where EHZ value coins need to be used and consumed include but not limited to the following:

01

When global technology projects, innovation projects, value projects/applications, entrepreneurs create projects, run/operate projects, etc. on EHZ, they need to use or consume EHZ digital coins.

02

When institutions/funds/enterprises/organizations/LP/GP/high-net-worth individuals and other capital parties participate in various project investments, mergers and acquisitions, transactions, and investment in each round of projects on EHZ (such as seed rounds, angel rounds, A/B/C/ rounds, pre-IPO rounds, etc.), they need to allocate and use a certain proportion of EHZ value coins to participate in the investment, and the EHZ value coins that are allocated and used need to be purchased in circulation in the exchange.

03

When the global public, capital institutions and enterprises use the massive technological projects, innovation projects, and value projects/applications on the value infrastructure of EHZ, they need to use and consume EHZ in certain links.

■ Use and consumption of EHZ:

04

When the global public, capital institutions and enterprises use the personal account/corporate account on the value infrastructure/platform of EHZ, while obtaining incentives, they need to use and consume EHZ in certain links (except for the free basic functions, they need to use and consume EHZ for other paid functions, such as specific functions, upgrade functions, VIP functions, etc.).

05

If users hold a certain amount of EHZ, they will enjoy corresponding discounts and privileges, as well as VIP privileges and priorities when they use the functions and services of the massive projects/applications on the value infrastructure of EHZ, or when they use/consume EHZ.

06

When scientific and technological projects, innovative projects, value projects/applications, etc. that have passed the value audit issue digital coins on EHZ, and listed on the value currency exchange of EHZ, they need to use and consume a certain amount of EHZ.

■ Use and consumption of EHZ:

07

When investing and trading in the value exchange of EHZ, the transaction fees generated during the transaction need to use and consume EHZ.

08

It is recommended to allocate a certain amount of EHZ to relevant strategic partners of EHZ and related cooperative enterprises, funds, capital, etc.

09

EHZ will smoothly expand to most countries in the world due to its value orientation and drive. Under the value-oriented framework (value-oriented general direction), many other fields and platforms, enterprises, channels, etc. will use and consume EHZ value coins in the future.

01-09

The above are just some of the places where EHZ needs to be used and consumed, and do not include global investors, institutions, funds, capital parties, enterprises, financial investors, etc. who invest in and hold EHZ.

EHZ value coin subscription is open!

EHZ will smoothly expand to most countries in the world, with a huge user base.

EHZ is a real value coin and a value infrastructure. It pushed the development of innovation, science and technology, entrepreneurship investment, value finance, value projects/applications etc., and it is value-driven, so it is welcomed, needed and expected by most countries of the world. For the national leadership, the society and the people, what EHZ brings is beneficial value (benefiting the country, the people, the society, and the holders). It plays a positively promoting role and produces positive energy. Therefore, EHZ can smoothly expand to most countries of the world.

Since EHZ brings beneficial value to most countries and people in the world, they will expect, accept, support, need, and seek for EHZ. People, capital, and enterprises in most countries in the world make a very large user base.

■ EHZ Subscription

Subscription price: 0.5 USDT per EHZ.

Exchange goes public officially/Opening unit-price:
10 USDT per EHZ (20 times the subscription price)

EHZ will smoothly expand to most countries in the world, with a huge user base.

EHZ Subscription Platform: <https://h.cjz.vip/en>

■ EHZ Price Related

As a value infrastructure/value intelligent chain/value coin that is beneficial to the country, society, and the public, EHZ will smoothly expand to the world; EHZ has rich resources, deep fundamentals, and a broad global market (most countries, companies, people, capital, etc. in the world), high value base, massive global users, beneficial attributes, etc. The subsequent price of EHZ will be very high, and now you can enjoy the private placement benefits. The subsequent gains will be far more than a hundred times what they are when the exchange open! The subsequent price of EHZ will amount to dozens of USDT up to hundreds of USDT each.

Meanwhile, based on the demand, use and consumption of EHZ, as well as the continuous development of EHZ, the demand for EHZ is extensive and beneficial. In the future, the quantity of EHZ will be in short supply (even seriously in short supply), the price of EHZ value coin will be very high, and the following series of profits of EHZ users in the subscription stage will be extremely rich.

■ EHZ Launching Time

The specific time of listing the exchange will be selected based on the progress and comprehensive situation of EHZ value intelligent chain and global value infrastructure. Barring special circumstances, it will be listed in 2023.

It will be listed on a number of exchanges (including the value currency exchange owned by EHZ).

The value coin exchange of EHZ will only serve the value coin on a global scale! It will lead the future direction and correct direction of the digital coin exchange.

After EHZ is listed and traded on the exchange, EHZ subscribed by users will be unlocked in three phases(one month is one phase). Unlock 30% in the first month, 30% in the second month and 40% in the third month.

On EHZ official subscription platform registered by the users, they can withdraw the unlocked EHZ to many exchanges or wallet, or transfer to the EHZ value coin exchange for trading, or transfer to the value infrastructure of EHZ for management and use, or continue to store in the official subscription platform of EHZ. Users can withdraw, transfer, sell, buy, store, use, trade and arrange freely.

■ EHZ Dividends and Benefits 1

01

Due to the series advantages of EHZ, the subsequent value and benefits will be very rich and high. In addition to the 20 times profit and subsequent higher profit of EHZ held by the subscription users, the users will get dividends according to the proportion of holding time and quantity. The first dividend will be paid six months after the opening, and the subsequent dividends will be paid every six months.

02

Users who hold a certain amount of EHZ and hold it for more than 7 months after the opening transaction (or buy EHZ after the opening and promise to hold it for more than one year and lock up the position for at least one year) will get corresponding VIP privileges, including: when the holder's own projects or recommended projects issue coins on the value infrastructure/value intelligent chain of EHZ, and when they are listed on the value coin exchange of EHZ, they will enjoy the corresponding VIP user privileges (or privilege blessings).

03

If users hold a certain amount of EHZ (no time requirement), they will enjoy corresponding discounts and privileges and enjoy corresponding VIP privileges and priorities when they use the massive projects/functions and services of the value infrastructure of EHZ or use/consume EHZ. There is a certain holding time requirement for special VIP functions and discounts.

■ EHZ Dividends and Benefits 2

When each high-quality technology project, innovation project, or value project is settled in or created on EHZ, it will receive certain EHZ rewards (locked position); when these technology projects and value projects make certain contributions (including contributions to the development of the country, society, people, science and technology, and contribution to the value infrastructure of EHZ, etc., and there will be a comprehensive indicator then), or when the project achieves a breakthrough, the EHZ in the locked position will be unlocked.

Meanwhile, these projects can issue coins on EHZ infrastructure/value coin intelligent chain, and will enjoy the green channel. If they are supported by EHZ (including enjoying the green channel), EHZ will obtain a small amount of original share when these projects issue coins, and this share can be realized or converted into income under the premise of the healthy development of these projects, or held for dividends. Part of these earnings will be shared with EHZ holders as dividend benefits. The other part of these benefits will be awarded to teams and individuals who have contributed to the technology, innovation, and value projects/applications on the value infrastructure of EHZ, so as to inspire more teams and individuals to contribute to technology, innovation, value projects/applications, stimulate their motivation and potential, promote future and social progress, and bring benefits to society and the people, thus forming a virtuous circle.

According to the scientific research achievements, innovation achievements, value contribution to the future, the country, society, people, etc. of each person, team or enterprise, after reaching the standard, they will be rewarded with EHZ value coins (part of these rewards will be rewarded with the exclusive EHZ digital coin, and the other part will be part of the income gained by EHZ in the second paragraph above, and this part of the income will be rewarded by purchasing the EHZ digital coins circulating in the market). For example, if they have made a certain contribution, or there are scientific research achievements, innovation achievements, the benefits brought by value projects/applications to the society and the people, etc., or other valuable contributions, after reaching a certain standard, they will be rewarded with EHZ digital coins; the digital coins will be locked up and sold in installments after they have held them for a certain period of time.

EHZ is not only a real value coin, a value infrastructure, a value intelligent chain, but also an authoritative financial portal/mainstream portal and financial platform, as well as a unicorn, with great influence and credibility! The official website of EHZ has been operating for 8 years! In a matter of years, EHZ official website has pushed the advancement and development of innovation, technology development, entrepreneurship investment, value finance, value projects/applications etc. and achieved great results! Value-oriented and value-driven !

■ About EHZ Official Website Forging the Future

EHZ official website is one of the previous achievements (or a video chapter of one of the series of achievements) on innovation, technology, entrepreneurship investment, value finance, and value projects/applications:

Please search on Google: Forging the Future
Or click the link below:
<https://v.qq.com/x/cover/mzc002007eh6kf9.html>

- The above 6 episodes of shocking videos of Forging the Future are driven by innovation, technology, entrepreneurship investment, value finance, and value projects/applications from the official website of EHZ;

Forging the Future is divided into 6 episodes, namely

Episode 1: Cyborg Revolution

Episode 2: Human Immortality

Episode 3: Life Off Earth

Episode 4: Hyper Intelligence

Episode 5: Disease-Free World: The Microbiome

Episode 6: The Rise of Genetic Engineering

- Some contents in it, the technology application scenarios and innovative world application scenarios of EHZ, have been proposed and promoted in 2018; other parts, the value finance/technology series/innovation series of EHZ, have been promoted a long time ago.
- Forging the Future has been broadcast around the world gradually, and won the relevant Science and Technology Gold Award in the United States in October 2021.
- Now EHZ has added significant value infrastructure/value intelligent chain, the entire EHZ system will produce a double leap in quality and quantity on the basis of the previous ones.

■ EHZ Related

- Many projects on the value infrastructure of EHZ will develop into the world's first or top-ranked projects, unicorns, industry invisible champions, leaders, and boutiques in various sub-sectors; meanwhile, many pioneering new projects and new categories will be born, as well as many high-value projects that can bring rich benefits, which are value-oriented and value-driven.
- The value infrastructure/value intelligent chain only serves value projects/applications, innovation, technology, and entrepreneurship investment, and only serves value pan-systems.
- The value infrastructure of EHZ will promote the rapid development of many industries to benefit society, people, enterprises, countries, etc.
- EHZ will push the advancement and development of innovation, technology, entrepreneurship investment, value finance, and value projects/applications. To promote them is to promote the development of the world, the future and society, to create value for the country, society and people, and to create value for oneself.
- EHZ may access E-CNY (DC/EP) and other digital coins of the Central Bank.

Access means that you can use digital RMB to subscribe, trade, EHZ, etc.; EHZ is a global value infrastructure, and it will expand to the world together with digital RMB (and subsequent digital currencies of the Central Bank). It will comprehensively promote the advancement and development of innovation, technology, entrepreneurship investment, value finance, value projects/applications, etc. It is value-driven.

The contribution of EHZ may be greater than what you expected, and may also greater than what we have presented so far; EHZ will give more surprises one after another!

EHZ, the real value coin!
