

VCW

VCW, 10-year unicorn! Connects all things in the world! Value driven! Value coin!

■ About VCW

VCW, 10-year unicorn! connects all things in the world! value driven! value coin!

VCW, affiliated with a 10-year-old established unicorn EHZ, is the auxiliary coin of all levels, systems and ecosystems of EHZ. (EHZ is introduced starting from page 5.)

At the same time, VCW is the value coin, element coin, and universal coin that connects all things in the world; driven by value! VCW, a value-driven infrastructure. The use of VCW is extremely broad, and everything that exists in the physical world and the digital world, etc., can be connected and used with VCW. Every entity in the world, from large cities, businesses, and industries, to a single product, an apple, and so on, can use VCW for value-driven progress.

VCW is a historic milestone for value connection/promotion of the progress and development of all things in the world!

The future and direction of coin circle, It's a real value coin creating and supplying positive energy. VCW, a true value coin.

■ What is value?

"Value" represents "beneficial, virtuous cycle, positive energy, and positive promotion."

Value means that if VCW is connected to a thing, then through the value drive of VCW, this thing will make healthy progress and development, which will have a beneficial impact on the thing itself. At the same time, this benefit is not only beneficial to the development of the thing itself, but also beneficial to society, the country, and the people, that is, healthy and beneficial development.

The value of VCW connects everything in the world, which is beneficial to the country, the people, the society, the national leaders, the investors, and everything in the world. VCW is beneficial to them and everyone, and VCW will be smoothly expanded to most countries in the world and everything in the world. VCW's user base and users are very large.

VCW is the value coin, auxiliary coin, element coin, and universal coin that connects all things in the world; driven by value! VCW, a value-driven infrastructure. The use of VCW is extremely broad, and everything that exists in the physical world and the digital world, etc., can be connected and used with VCW. Every entity in the world, from large cities, businesses, and industries, to a single product, an apple, and so on, can use VCW for value-driven progress.

■ About EHZ

EHZ, the real value coin! Value infrastructure! Value intelligent chain! Ten Year Unicorn! An authoritative financial portal/mainstream portal/value platform! A value complex! Value-driven and value-oriented!

- EHZ will push the advancement and development of innovation, science and technology, entrepreneurship investment and value projects/applications, etc.! It will create value and welfare for the country, society and people!
- EHZ official website has been in operation for ten years. It is a unicorn, an authoritative financial portal/mainstream portal/financial platform/value platform, with great influence and credibility! In a matter of years, EHZ official website has pushed advancement and development of innovation, science and technology, entrepreneurship investment, value finance, etc. and achieved great results! Value-oriented and value-driven, EHZ official website: www.cjz.vip
- EHZ added value infrastructure and value intelligent chain. EHZ will directly create or spawn massive scientific and technological projects, innovative projects, value projects/applications, etc. It is value-oriented and value-driven. It will achieve both qualitative and quantitative leap, and will further push the advancement and development of innovation, technology development, entrepreneurship investment and value projects/applications, etc. It will create value and welfare for the country, society, people and investors.

■ EHZ Value Infrastructure 1:

■ Science and technology:

On the value infrastructure of EHZ, every person in the world with a certain level of scientific and technological knowledge, whether it is the knowledge and technology of a certain part or link of science and technology, their scientific and technological cognition, technical skills, or technological fragments, no matter whether it is partial or complete, or details, ideas/concepts, etc., can be stored, launched/developed, improved, integrated, displayed, operated, created value, cooperated, traded, earned, realized, etc. on the EHZ value infrastructure. The collision and convergence of global science and technology oceans will form a strong joint force of science and technology.

■ Innovation:

Everyone's innovation in the world can bloom on the value infrastructure of EHZ! Under the guidance of value orientation, all kinds of innovation for everyone in the world and the combined force of innovation without barriers for everyone in the world will be extremely profound. Its huge large-scale and various innovation effects and value effects will bring abundant well-being to the society and the people; the innovation of everyone in the world can be displayed, implemented, stored, improved, integrated, developed, cooperated, traded, earned, realized, etc. on EHZ;

■ Value projects/applications:

Entrepreneurs (individuals, teams, enterprises, etc.) all over the world can create and operate value projects/applications on EHZ. While creating value, they can also finance, trade, etc., and enjoy the same rights with the scientific and technological projects and innovation projects on it.

In addition to directly creating projects, science and technology projects, innovation projects, and value projects/applications that are already in operation can be settled in the value infrastructure of EHZ.

■ EHZ Value Infrastructure 2:

The entrepreneurship investment of all projects and investments at various stages on EHZ value infrastructure must include a certain percentage of EHZ value coins:

Entrepreneurs can create value projects, run/operate projects on EHZ, and obtain financing on the value infrastructure/value intelligent chain of EHZ; project investors, whether they are owners of various capital, organizations, institutions, funds, enterprises with investment needs, or individual investors, can invest in related projects on EHZ, including entrepreneurial projects, science and technology projects, innovation projects, and value projects in various stages;

In addition to obtaining peer-to-peer entrepreneurship investment from project investors, entrepreneurs of technology/innovation projects of value projects/applications can also apply for the issuance of their exclusive digital currency on the value infrastructure/value intelligent chain of EHZ at the appropriate stage after being reviewed by EHZ to support the development of their projects. It can also be launched and traded on the value currency exchange of EHZ, so as to better create value and welfare for the society and people.

When institutions/funds/enterprises/organizations/LP/GP/high-net-worth individuals and other capital parties participate in various project investment, mergers and acquisitions, transactions, and investment in each round of projects on EHZ (such as seed rounds, angel rounds, A/B/C/ rounds, pre-IPO rounds, etc.), they need to deploy a certain proportion of EHZ value coins to participate in the investment.

When a project is created on the infrastructure of EHZ (or when a third-party project settles in), when signing a value-oriented network agreement with EHZ, it will indicate on the agreement that when any subsequent rounds of entrepreneurship investment is obtained, the investment funds should contain a certain percentage of EHZ value coins or related assets officially approved by EHZ.

■ EHZ Value Infrastructure 3:

01

The funds raised on EHZ by issuing coins for science and technology projects, value projects and applications will be unlocked to the project party according to the progress of science and technology projects/value projects, and the funds will be used exclusively; when they issue coins and go online on the value currency exchange of EHZ, it is necessary to purchase, hold and consume a certain amount of EHZ.

02

According to the scientific research achievements, innovation achievements, value contribution to the future, the country, society, people, etc. of each person, team or enterprise, after reaching the standard, they will be rewarded with EHZ value coins (for example, if they have made a certain contribution, or there are scientific research achievements, innovation achievements, the benefits brought by value projects/applications to the society and the people, etc., or other valuable contributions, after reaching a certain standard, they will be rewarded with EHZ digital coins); these rewarded digital coins will be locked and can be unlocked and sold in installments after they are held for a period of time.

■ EHZ Value Infrastructure 3:

03

Each science and technology project, innovation project and value project will be audited when issuing coins on the value infrastructure/value intelligent chain of EHZ. After passing the audit, it can be traded on the value currency exchange of EHZ or other exchanges. The digital coins issued by some of the approved projects will be unlocked according to the development progress of the project to ensure that it is a value project or application, and its development and each stage belong to the value category, which is beneficial to the country, society and people, can bring value (including value to investors), and can produce value effects or energy at present or in the future.

04

There are abundant scientific and technological projects, innovation projects, and value projects/applications on the value infrastructure of EHZ. In addition to the many project categories we know, such as life sciences, intelligent AI, virtual reality, etc., a series of pioneering and subversive projects and categories, never-before-seen projects and categories will be created. They are value-oriented, will promote social progress and development, and seek welfare for society and human beings.

■ EHZ big system:

The EHZ big system includes: EHZ value infrastructure, EHZ intelligent chain, EHZ value currency, EHZ website (10-year unicorn), EHZ value currency exchange (and its series of derivatives), EHZ science and technology system, EHZ innovation system, EHZ pan-ecosystem, etc. (the above are only parts of the EHZ big system, and they are all EHZ value currency elements).

Among them, as a part of the EHZ big system, the EHZ website has been in operation for ten years (a ten-year-old unicorn with a proven track record, an authoritative financial portal/mainstream portal/value platform). In the past ten years, it keeps contributing to innovation, science and technology, entrepreneurship investment, value finance and so on and has delivered results, with great influence, credibility and authority! This website (10-year unicorn) alone has been valued at billions of dollars, not including EHZ value infrastructure, EHZ value intelligent chain, EHZ value currency, EHZ value currency exchange, EHZ science and technology system, EHZ innovation system, EHZ pan-ecosystem, etc. The EHZ website (10-year unicorn) is just one of the elements of EHZ. Apart from it, EHZ has a series of other very strong supports.

EHZ, promoting the advancement and development of innovation, science and technology, entrepreneurship investment, value finance and value projects/applications, etc.; value-driven! Contribute and deliver results continuously!

All of the above belong to EHZ value coin!

■ Use and consumption of EHZ:

EHZ is a value infrastructure, a value intelligent chain, and a real value coin. A total of 9 billion EHZ coins were issued, and the places where EHZ value coins need to be used and consumed include but not limited to the following:

01

When global science and technology projects, innovation projects, value projects/applications, entrepreneurs create projects, run/operate projects, etc. on EHZ, they need to use or consume EHZ digital coins. (Purchase in the market at EHZ unit price of 10 USDT and above, the same below)

02

When institutions/funds/enterprises/organizations/LP/GP/high-net-worth individuals and other capital parties participate in various project investments, mergers and acquisitions, transactions, and investment in each round of projects on EHZ (such as seed rounds, angel rounds, A/B/C/ rounds, pre-IPO rounds, etc.), they need to configure and use a certain proportion of EHZ value coins to participate in the investment. The configured and used EHZ needs to purchase the circulating EHZ value coins on the exchange.

03

When the global public, capital institutions and enterprises use the massive science and technology projects, innovation projects, and value projects/applications on the value infrastructure of EHZ, they need to use and consume EHZ in certain links.

■ Use and consumption of EHZ:

04

When the global public, capital institutions and enterprises use the personal account/corporate account on the value infrastructure/platform of EHZ, while obtaining incentives, they need to use and consume EHZ in certain links (except for the free basic functions, they need to use and consume EHZ for other paid functions, such as specific functions, upgrade functions, VIP functions, etc.).

05

If users hold a certain amount of EHZ, they will enjoy corresponding discounts and privileges, as well as VIP privileges and priorities when they use the functions and services of the massive projects/applications on the value infrastructure of EHZ, or when they use/consume EHZ.

06

When scientific and technological projects, innovative projects, value projects/applications, etc. that have passed the value audit issue digital coins on EHZ, and listed on the value currency exchange of EHZ, they need to use and consume a certain amount of EHZ.

■ Use and consumption of EHZ:

07

When conducting investment transactions on the Value Coin Exchange under EHZ, the transaction fees generated require the use and consumption of EHZ digital coins.

08

Subsequent EHZ strategic partners, as well as related cooperative enterprises, funds, capital, etc., will be advised to configure a certain amount of EHZ digital coins.

09

EHZ will smoothly expand to most countries in the world due to its value orientation and drive. Under the value-oriented framework (value-oriented general direction), many other fields and platforms, enterprises, channels, etc. will use and consume EHZ value coins in the future.

01-09

The above are just some of the places where EHZ needs to be used and consumed, and do not include global investors, institutions, funds, capital parties, enterprises, financial investors, etc. who invest in and hold EHZ.(After the exchange is officially launched, all the above must be purchased in the market at the EHZ unit price of 10 USDT or above)

EHZ will smoothly expand to most countries in the world, with a huge user base.

EHZ is a real value coin and a value infrastructure. It pushed the development of innovation, science and technology, entrepreneurship investment, value finance, value projects/applications etc., and it is value-driven, so it is welcomed, needed and expected by most countries of the world. For the national leadership, the society and the people, what EHZ brings is beneficial value (benefiting the country, the people, the society, and the holders). It plays a positively promoting role and produces positive energy. Therefore, EHZ can smoothly expand to most countries of the world.

Since EHZ brings beneficial value to most countries and people in the world, they will expect, accept, support, need, and seek for EHZ. People, capital, and enterprises in most countries in the world make a very large user base.

■ EHZ Price Related

As a value infrastructure/value intelligent chain/value coin that is beneficial to the country, society, and the public, EHZ will smoothly expand to the world; EHZ has rich resources, deep fundamentals, and a broad global market (most countries, companies, people, capital, etc. in the world), high value base, massive global users, beneficial attributes, etc. The subsequent price of EHZ will be very high. **The price of EHZ will reach several hundred USDT per piece in the future.**

Meanwhile, based on the demand, use and consumption of EHZ, as well as the continuous development of EHZ, the demand for EHZ is extensive and beneficial. In the future, the quantity of EHZ will be in short supply (even seriously in short supply), the price of EHZ value coin will be very high, and the following series of profits of EHZ users will be extremely rich.

■ EHZ Dividends and Benefits 1

EZH, in addition to the subsequent high price returns, EZH series dividends are also extremely rich.

Dividend Related:

- 1) EZH overall benefit dividends, huge benefits;
- 2) EZH website (10-year unicorn) dividend;
- 3) EZH's value-driven smart chain dividends; issuance of digital currencies on EZH's value-driven smart chain, need to pay fees; at the same time, all coins issued on the EZH smart chain, as well as transactions and activities involving these coins, incur transaction fees. These fees should be paid by buying EZH digital coins in the market according to the EZH unit price of 10USDT and above. It can refer to the huge monthly transfer fee income of the ETH smart chain ERC20 system. These profits within the EZH smart chain system will be distributed as dividends.
- 4) EZH value-based infrastructure dividends; EZH infrastructure revenue is more and the total amount of huge, one of the series of plates can be referred to the huge profits of Amazon cloud, etc. (Amazon cloud revenues of \$18.4 billion in the first quarter of 2022), but it is also different from the Amazon cloud; this is just one of the series of plates in the EZH value-based infrastructure, the EZH value-based infrastructure is rich and huge, with huge profits, which are dividends. At the same time, the value infrastructure is billed in EZH digital coins (Buy at the unit price of 10USDT or above of EZH at the market).
- 5) EZH's value-based exchange offers dividends (listing fees, transaction fee profits, derivative profits, operational profits, etc.), with the exchange's profits being substantial as well. All these fees are charged in EZH digital currency (Buy at the unit price of 10USDT or above of EZH at the market).
- 6) EZH pan-ecological dividends, huge gains. Pan-ecology in the series of costs are taken EZH digital coin billing (Buy at the unit price of 10USDT or above of EZH at the market).

■ EHZ Dividends and Benefits 2

01

Due to the series advantages of EHZ, the subsequent value and benefits will be very rich and high. In addition to the subsequent high price profits of EHZ held by the users, the users will get dividends according to the proportion of holding time and quantity. The first dividend will be paid six months after the opening, and the subsequent dividends will be paid every six months.

02

Users who hold a certain amount of EHZ and hold it for more than 7 months after the opening transaction (or buy EHZ after the opening and promise to hold it for more than one year and lock up the position for at least one year) will get corresponding VIP privileges, including: when the holder's own projects or recommended projects issue coins on the value infrastructure/value intelligent chain of EHZ, and when they are listed on the value coin exchange of EHZ, they will enjoy the corresponding VIP user privileges.

03

If users hold a certain amount of EHZ (no time requirement), they will enjoy corresponding discounts and privileges and enjoy corresponding VIP privileges and priorities when they use the massive projects/functions and services of the value infrastructure of EHZ or use/consume EHZ. There is a certain holding time requirement for special VIP functions and discounts.

■ EHZ Dividends and Benefits 3

When each high-quality science and technology project, innovation project, or value project is settled in or created on EHZ, it will receive certain EHZ rewards (locked position); when these science and technology projects and value projects make certain contributions (including contributions to the development of the country, society, people, science and technology, and contribution to the value infrastructure of EHZ, etc., and there will be a comprehensive indicator then), or when the project achieves a breakthrough, the EHZ in the locked position will be unlocked.

Meanwhile, these projects can issue coins on EHZ infrastructure/value coin intelligent chain, and will enjoy the green channel. If they are supported by EHZ (including enjoying the green channel), EHZ will obtain a small amount of original share when these projects issue coins, and this share can be realized or converted into income under the premise of the healthy development of these projects, or held for dividends. Part of these earnings will be shared with EHZ holders as dividend benefits. The other part of these benefits will be awarded to teams and individuals who have contributed to the science and technology, innovation, and value projects/applications on the value infrastructure of EHZ, so as to inspire more teams and individuals to contribute to science and technology, innovation, value projects/applications, stimulate their motivation and potential, promote future and social progress, and bring benefits to society and the people, thus forming a virtuous circle.

According to the scientific research achievements, innovation achievements, value contribution to the future, the country, society, people, etc. of each person, team or enterprise, after reaching the standard, they will be rewarded with EHZ value coins (part of these rewards will be rewarded with the exclusive EHZ digital coin, and the other part will be part of the income gained by EHZ in the second paragraph above, and this part of the income will be rewarded by purchasing the EHZ digital coins circulating in the market). For example, if they have made a certain contribution, or there are scientific research achievements, innovation achievements, the benefits brought by value projects/applications to the society and the people, etc., or other valuable contributions, after reaching a certain standard, they will be rewarded with EHZ digital coins; these rewarded digital coins will be locked and can be unlocked and sold in installments after they are held for a period of time.

EHZ is not only a real value coin, a value infrastructure, a value intelligent chain, but also an authoritative financial portal/mainstream portal and financial platform, as well as a unicorn, with great influence and credibility! EHZ, the old-brand unicorn for 10 years! In a matter of years, EHZ official website has pushed the advancement and development of innovation, science and technology, entrepreneurship investment, value finance, value projects/applications etc. and achieved great results! Value-oriented and value-driven!

■ About EHZ Official Website - Forging the Future

EHZ official website is one of the previous achievements (or a video chapter of one of the series of achievements) on innovation, science and technology, entrepreneurship investment, value finance, and value projects/applications:

Please search on Google: Forging the Future

Or click the link below:

https://list.youku.com/show/id_zbfb6681255842f3b0aa.html

<https://v.qq.com/x/cover/mzc002007eh6kf9.html>

- The above 6 episodes of shocking videos of Forging the Future are driven by innovation, science and technology, entrepreneurship investment, value finance, and value projects/applications from the official website of EHZ;

Forging the Future is divided into 6 episodes, namely

Episode 1: Cyborg Revolution

Episode 2: Human Immortality

Episode 3: Life Off Earth

Episode 4: Hyper Intelligence

Episode 5: Disease-Free World: The Microbiome

Episode 6: The Rise of Genetic Engineering

- The science and technology application scenarios and innovative world application scenarios of EHZ have been proposed and promoted since 2018; In addition, some of EHZ's value oriented finance/science and technology series/innovation series have been promoted even earlier.
- Forging the Future won the gold award in the science and technology category in the United States in October 2021.

■ EHZ Related

- Many projects on the value infrastructure of EHZ will develop into the world's first or top-ranked projects, unicorns, industry invisible champions, leaders, and boutiques in various sub-sectors; meanwhile, many pioneering new projects and new categories will be born, as well as many high-value projects that can bring rich benefits, which are value-oriented and value-driven.
- The value infrastructure/value intelligent chain only serves value projects/applications, innovation, science and technology, and entrepreneurship investment, and only serves value pan-systems.
- The value infrastructure of EHZ will promote the rapid development of many industries to benefit society, people, enterprises, countries, etc.
- EHZ will push the advancement and development of innovation, science and technology, entrepreneurship investment, value finance, and value projects/applications. To promote them is to promote the development of the world, the future and society, to create value for the country, society and people, and to create value for oneself.
- EHZ is high probability to be connected to the central bank's digital currency in the future.

Access means that you can subsequently use central bank digital currency to purchase, trade EHZ, etc. EHZ is a global value infrastructure, and it will expand to the world together with central bank digital currency. It will comprehensively promote the advancement and development of innovation, science and technology, entrepreneurship investment, value finance, value projects/applications, etc. It is value-driven.

The contribution of EHZ may be greater than you expected, and also greater than what we are currently showcasing; EHZ will provide more surprises one after another!

EHZ, the real value coin!
